PEFINDO has affirmed the ratings of PT Jasa Marga (Persero) Tbk (JSMR) and its outstanding bonds at ^{id}AA. Outlook for the corporate rating is stable. The rating reflects JSMR's important role to the government, the Company's dominant position in the toll road sector, a diversified toll road portfolio with a long concession period, and very strong financial flexibility. The rating is constrained by business risks related to the development of new toll roads and its high leverage.

We may raise the rating if JSMR could strengthen its business profile substantially by successfully developing and operating new toll roads with strong traffic volume, which supports the improvement in its financial profile, with lower leverage and stronger cash flow coverages on a sustain basis. We may lower the rating if government support weakens, its financial profile deteriorates because of a severe drop in revenue due to a decline in traffic volume, or the Company incurs higher debt than projected without being compensated by favorable growth prospects.

JSMR is the largest toll road operator in Indonesia. Its portfolio includes 9 toll road concessions at the parent company and 24 operated toll roads at subsidiaries, whereas four toll roads are still under construction and one still partially operating. As of December 31, 2024, its shareholders were the Indonesian government (70%), public (29.94%, each below 2%), and its management (0.06%).

PEFINDO menegaskan peringkat PT Jasa Marga (Persero) Tbk (JS MR) dan Obligasi yang telah diterbitkan di idAA. Prospek peringkat Perusahaan adalah stabil. Peringkat mencerminkan peran penting JS MR bagi pemerintah, posisi usaha yang dominan di sektor jalan tol, portofolio jalan tol yang terdiversifikasi dengan masa konsesi yang panjang, dan fleksibilitas keuangan yang sangat kuat. Peringkat tersebut dibatasi oleh risiko bisnis terkait pengembangan jalan tol baru dan *leverage* yang tinggi.

Kami dapat menaikkan peringkat jika JS MR dapat memperkuat profil bisnisnya secara substansial melalui keberhasilan dalam mengembangkan dan mengoperasikan jalan tol baru dengan volume lalu lintas yang kuat yang mendukung perbaikan profil keuangannya, dengan *leverage* yang lebih rendah dan cakupan arus kas yang lebih kuat secara berkelanjutan. Kami dapat menurunkan peringkat jika dukungan pemerintah melemah atau profil keuangannya memburuk karena turunnya pendapatan akibat penurunan volume lalu lintas atau jika Perusahaan menambah utang lebih tinggi dari yang diproyeksikan tanpa dikompensasi oleh prospek pertumbuhan yang baik.

JS MR adalah operator jalan tol terbesar di Indonesia. Portofolio tol Perusahaan termasuk 9 konsesi jalan tol di induk perusahaan dan 24 ruas tol beroperasi di entitas anak, dimana empat ruas tol dalam konstruksi dan satu masih beroperasi sebagian. Pada tanggal 31 Desember 2024, pemegang saham Perusahaan terdiri dari Pemerintah Indonesia (70%), masyarakat (29,94%, masing-masing di bawah 2%), dan manajemen Perusahaan (0,06%).
